4 LOVELY NEW PHLOX

all 4 varieties \$1.29 Postpaid

We offer here one of the finest assortments of new Phlox ever grown. These new varieties are healthy, more vigorous, bloom better with larger and finer flowers. Four strong, field grown plants ONLY \$1.29 postpaid. ORDER NOW.

HEAVENLY BLUE — A true blue without any shadings whatsoever. The flower is the size of a half dollar with large compact heads.

MORGENROOD — A beautiful new wine red color entirely different from any other red Phlox. Very large flower and large heads.

NORDLIGHT — A new shade of rosy carmine with a red eye. Tall growing and has one of the largest flowers grown.

SALMON GLOW — A beautiful new Phlox of outstanding light salmon color. The flower head is the largest size of any Phlox grown today.

HARDY FALL ASTERS

Tall growing, bush plants, blooming throughout the Autumn months up to November. The plants are a mass of flowers. At blooming time, when planted in the perennial border, or among shrubbery, they light up the backgrounds with their cloud-like effect of highly colored blooms. In June thin out, leaving only 3 or 4 of the strongest shoots to each plant; then they will branch out freely and yield fine flowers. Plant in full sun.

ABENDROTHER — Beautiful deep rose. Grows 5 feet.

CLIMAX — Fine lavender blue with yellow center. One of the best and showiest with 4 foot pyramidal spikes of large flowers. Excellent for cutting.

NOVAE ANGLIAE — Bright purple violet. 4 feet.

NOVAE ANGLIAE ROSEA — Deep reddish-violet. 4 feet tall.

ROYAL BLUE — Large semi-double clear blue. Grows 2½ feet; blooms in September.

SUNSET — A new fall aster. Flowers large clear pink. Retains its original color unto the end.

WHITE LADY — Another new fall aster. This variety is the best and largest white.

ALL NO. 1 FIELD GROWN ROSES

3 for \$1.29 — Add 15c for Postage and Handling

E. G. HILL — Great massive blooms of deep maroon, velvety on inside and glistening outside; very perfumed with old rose fragrance.

ETOILE DE HOLLANDE — The finest dark red rose for general purposes. Its gigantic flowers are velvety crimson, and are produced with great freedom throughout the season. It is unquestionably the best and most popular red hybrid tea rose.

JOANNA HILL — New, strong growing, ever-blooming hybrid tea bush rose. Large, long, handsome buds, opening into a deep, extremely double bloom of a beautiful shade of deep yellow flushed with a coppery orange at base of petals.

PRESIDENT HOOVER — A gorgeous rose of a really new color combination. Buds are coppery red, beautifully pointed and borne on rigid stems. Large flowers are a vivid cerise-pink, scarlet-orange and gold, rioting in the most dazzling color effect imaginable. Exquisite fragrance. Very free flowering and very popular.

SENSATION — A good deep red rose on long stems. Produces large, fragrant flowers all summer. A very dependable rose.

SOUV. DE CLAUDIUS PERNET — Finest pure yellow rose ever produced in Europe. A lovely sunflower-yellow, deeper yellow in center, color that it retains in bud and open bloom. Buds are large, long-pointed; flowers full, double and delightful fragrance. Foliage is healthy, glossy, and disease resistant, vigorous, upright habit.

SUNBURST — Intense orange-copper and golden yellow color. Buds, long and pointed, opening full and double.

TALISMAN — This most sensational rose of all times has been awarded more gold medals than any other American production. Its brilliant orange-red buds open to a fragrant bloom of glowing golden yellow stained inside with copper-red and orange-yellow. The plant is healthy, vigorous and hardy with glossy green foliage.

WHITE AMERICAN BEAUTY (Frau Karl Drushki) — A very large white rose of perfect form. Vigorous grower. Most satisfactory to grow.

Tom Thumb Lily

(LILLIUM TENUIFOLIUM)

In early June this pretty little lily begins to bloom. Grows about 12 to 20 inches high, with finely cut foliage and slender stems. The waxy textured petals are beautifully recurved. Color is a very pretty shade of deep scarlet. It is the brightest of all lilies. When compared with other lilies, it really is a Tom Thumb. A most exquisite lily for your garden. Likes cool, damp loamy soil and partial shade. Plant 4 to 5 inches deep.

The Royal Lily

(LILLIUM REGALE)

A Gem, found in the Mountains of China, is the Regal Lily which startled the Flower World.

There is something awe-inspiring about this lily in bloom. Whether it be tradition or the beauty of the flower itself, we cannot say. Everyone who grows the Regal Lily feels he has a rare and choice possession.

It is one of the most beautiful and one of the hardiest lilies in cultivation. It is a lover of loam and sunshine. It is a strong grower, 4 to 6 feet high and when completely established produces as many as eighteen or more flowers.

Throat of the flower is flushed with yellow, shading to white at outer edges; externally, the flowers are brown or pink, on "ribs" shaded through the almost translucent petals with a delightful pearly tint; the contrast between the rich wine or pink color on the reverse of the petals and the gold shading of the throat is extraordinary and beautiful.

Delphinium

6 PLANTS \$1 ONLY

This delightful perennial belongs in every garden. Erect and stately against a fence, majestic accents in a mixed border, sturdy and hardy in the cottage garden, as well as modest and delicate where planted among annuals, the delphinium is incomparable.

How choice are their colors! From the azure of the sky to the deep blues of the ocean depths in its ranges of blue. But blues are not the only colors; there are pastel shades, not blue or pink, which suggest the combinations of color in Copenhagen pottery; deep sapphires, superb amethysts, and subtle turquoises.

Our delphiniums are of the famous Blackmore and Langdon strain. Fine healthy, strong roots are sent on every order. By all means plant delphiniums in your garden this fall.

Elegans

LILY

Very hardy dwarf lilies. Thrive well in any garden, sunny positions being preferred. Produce large, erect flowers in June and July of an orange red color. A special planting of this lily always makes an attractive picture. You will enjoy growing the Elegans Lily and will find that they adapt themselves readily to most any garden situation. Order at once for they are best planted in the fall.

MAGIC LILY

Imagine if you can a beautiful flower stalk springing right up out of the ground to a height of about 2 feet with no foliage. That is just what the Magic Lily or as it is properly known "Lycoris Squamigera" does. Bulbs of this unusual flower are quite rare and it is not offered generally. The bulbs should be planted in the fall for they are perfectly hardy. Cover crown of bulbs about 4 inches.

Early in the spring attractive green foliage appears and grows until July when it ripens and disappears. Then about a month later as if by magic — which accounts for its name, the flower stalks spring from the ground to a height of 2 to 3 feet. They develop an umbel of large, lily shaped flowers, 8 to 12 in number, of a delicate lilac-pink shade.

This is really a most unusual plant for the garden and we recommend it most highly. Limited stock — so order without delay.

6 Lovely CAMPANULAS

For 99c Postpaid

Few groups of flowers possess such rare beauty as the Campanulas or Canterbury Bells. All have more or less bell-shaped flowers in lovely colors, white, lilac, rose and blue. All are very desirable and the glorious large bells make a very effective display.

Plant in full sunlight and do not crowd in beds. They like a good, rich soil and in the spring a little fine manure and some bone-meal should be dug around each plant. The started field-grown plants we offer are of excellent quality and heavily rooted, so when planted in your garden this fall they will continue their growth and give fine results next season.

In the group of 6 plants we will send you 2 blues, 2 whites, 1 lilac and 1 rose-colored Campanula. None of the colors will be labeled individually, however.

ACHILLEA—THE PEARL

A proven plant for the garden because of its exceedingly free yet graceful habits of growth. "The Pearl" has double flowers born in dense heads of purest white. It somewhat resembles the Pompom chrysanthemums. Excellent for use as cut flowers and for the border. Very easy to grow, in fact, they grow so rapidly that the plants should be divided and reset each spring. Any soil will do, although they thrive best in rich, well-watered soil where plenty of sunshine is available.
